

# Rob & Hana

We have always dreamed of being parents and are grateful to be considered as the adoptive parents in your child's life.

## About us

We are best friends and soul mates. We have a stable relationship that is built on love, trust, and respect for each other.

We love spending time together, from exploring the outdoors, family gatherings in our big back yard to a quiet movie night on the couch with dog cuddles. We are excited to create more of these memories with our new family.

## Our Values & Lifestyle

We value honesty, compassion, kindness, and life-long learning.

Both of us grew up in a wholesome home environment where we were taught the importance of strong family values and intent to pass on these beliefs.

Your child will be encouraged to discover and develop their interests and emotions, whatever they may be. They will have the opportunity to make their own life choices, with every bit of support and guidance we can provide.

## About Hana

Born and raised in South Africa, Hana immigrated to Canada with her family when she was 13 years old. Through this, she learned the value of a strong family bond and building everlasting friendships and relationships. Her passions include painting, building puzzles, camping, and travelling. Hana is a giving, tender, and loving partner who always think of others before herself.

## About Rob

Growing up in BC, Rob experienced all the wonders of the province. As a young adult, Rob lost both his parents. Through these hardships he has learned how to be an unbelievably strong individual. His passions include watching and playing sports, building Lego, and spending time with family and friends. He is a caring, gentle, and hardworking person, who wears his heart on his sleeve.

## THANK YOU

Thank you for taking the time to read about us. Our hearts are bursting with love and we cannot wait to share that love with a child. We will support and encourage them wholeheartedly, love them unconditionally, and guide them as they grow.

We will respect any decision you make regarding openness and contact. We want you to feel loved and supported as you make best decision for yourself and your child.
